# Software Projects Consuming DPDK

## vSwitches/vRouters

## DPDK in OS Distros

## Packet Generators

## TCP/IP Stacks

## Storage

Storage Performance Development Kit  
(SPDK)

# A Continuous Growing Community

## What's new in the past year (just to name a few...)

vhost post-copy  
better dynamic logging support  
base band device  
port representor  
Windows support  
librte\_stack ice driver  
librte\_telemetry af\_xdp driver  
virtio1.1  
mustl compatibility improvements  
ifc driver hotplug compress device  
bpf support librte\_ipsec raw device  
RCU support ipn3ke driver  
memory enhancements  
virtio-user enhancements for container  
better new offload API support  
generic multi-process communication channel

## Active Contributors

强大的开源社区，持续的前沿技术输入！

# DPDK Release Growth

**2014**  
First non-IA  
contributions.

**2015**  
Non-Intel NIC support.

**2016**  
Significant ARM  
vendor engagement.

**2017**  
SoC enhancements.  
Non-Intel crypto.

**2018**  
Focus on generic APIs &  
additional accelerators

**19.05 Release Stats:**  
1057 patches  
142 authors  
46 new contributors  
>20 contributing orgs

Full release stats <http://mails.dpdk.org/archives/dev/2019-May/132193.html>

# DPDK 19.05 Release

---

- Deep community involvement! **1057** patches from **142** contributors!
- Main feature list
  - Updated driver support for various NICs
  - Asymmetric Crypto and compression enhancements
  - Virtio 1.1 initial support
  - Non-Blocking Stack Mempool Handler
  - Initial Windows Support
  - Power management
  - AF\_XDP PMD

# Upcoming Events in Bordeaux and US

DPDK Summit Userspace, Bordeaux  
**September 19-20, 2019**  
2-day event

DPDK US Summit, San Jose  
**December, 2019**  
2-day event

[\*\*https://www.dpdk.org/events/\*\*](https://www.dpdk.org/events/)

# Agenda in the morning

Time	Duration	Presenter	Company	Topic
9:00 - 9:15	15	Jim St leger	Intel	Opening
9:15 - 9:40	25	Tao Yang Xuekun Hu	Intel	Archive stable high performance DPDK on modern multi-core CPU
9:40 - 10:05	25	Fan Zhang Ping Yu	Intel	DPDK IPsec: a scalable high performance library for your IPsec application
10:05 - 10:30	25	Yijun Hou	Alibaba	DPDK Slab Allocator and applied it to zero-copy stack
10:30 - 10:45	15	Shu Ma	Alibaba	DPDK based userspace TCP/IP stack testing
10:45 - 11:00	15	<b>Break</b>		
11:00 - 11:20	20	Ben-Shahar Belkar	Huawei	Developing CI/CD for Huawei Smartnic DPDK PMD using DTS
11:20 - 11:45	25	Sharan Santhanam	NECLAB	Building DPDK Unikernels with Unikraft
11:45 - 12:10	25	Zijiang Zhou	JD	Networking Products Based on DPDK Integrated with Kubernetes Container Networking Contiv
12:10 - 13:10	60	<b>Lunch</b>

# Agenda in the afternoon

Time	Duration	Presenter	Company	Topic
13:10 - 13:35	25	Xiaohua Wang	Ericsson	5G Core network load test system with DPDK
13:35 - 14:00	25	Jingjing Wu	Intel	DPDK: Accelerate Remote Rendering of Cloud
		Owen Zhang		Gaming
14:00 - 14:15	15	Rosen Xu	Intel	Flow and HQoS DPDK Acceleration Using 100GBE Intel Programmable Acceleration Card
14:15 - 14:35	20	Break		
14:35 - 15:00	25	Tim O'Driscoll	Intel	Balancing Application Performance and Portability
15:00 - 15:25	25	Joyce Kong Gavin Hu	ARM	Vhost and virtio on ARMv8 performance tuning and optimization
15:25 - 15:40	15	Linsi Yuan	Baidu	Practice of ovswdpdk in Baidu
15:40 - 15:55	15	Xiaolong Ye	Intel	Integrating AF_XDP into DPDK

# Thank You – The DPDK Event Team

---

- Zhihong Wang, Intel
- Tim O'Driscoll, Intel
- Jim St. Leger, Intel
- Cunming Liang, Intel
- Ferruh Yigit, Intel
- Konstantin Ananyev, Intel
- Bruce Richardson, Intel
- George Zhao, Huawei
- Maxime Coquelin, Red Hat
- Philippe Robin, ARM
- Thomas Monjalon, Mellanox
- Yong Wang, ZTE
- Trishan de Lanerolle, The Linux Foundation
- Sana Ali, The Linux Foundation

# Final Thoughts

- Focus here, multitask elsewhere
- Timing suggestion:
  - 25 min sessions: 20 min talk + 5 min Q&A
  - 15 min sessions: 12 min talk + 3 min Q&A
- Have fun! 😊
